THE EXPERTS AMONG  
THE EXPERTS

We are  
**EUROTUX**

Eurotux is an expert in managed IT services, infrastructure-as-a-service (IaaS) and web development, while offering solutions adapted to organizational challenges, enabling the clients to achieve a competitive edge and allowing them to focus on their core business.

Eurotux Group is a holding that includes Eurotux Informática SA, along with ITMZ and Dipcode.

MOVING BUSINESS FORWARD

[www.eurotux.com](http://www.eurotux.com)

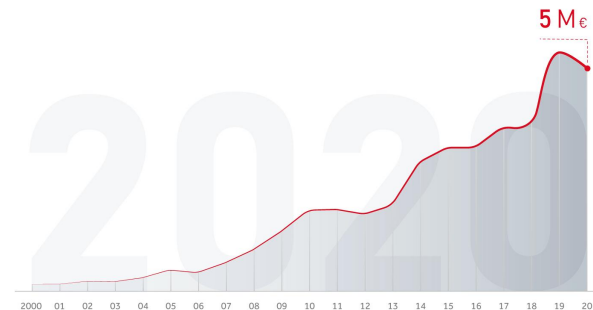

Each project that Eurotux develops comes off as unique, tailored to the client, with high security criteria to ensure the greatest availability, always ready for contingency situations. We have been holding ISO 9001:2015 certification by SGS for 6 consecutive years.

The open source technology — inherently transparent, reliable and high performance — has been and still is part of Eurotux culture since its inauguration, nevertheless, our teams are also equipped with multiplatform knowledge and know-how as well as large manufacturers' technology.
